

# [ E-LOCKERS

## TECHNICAL SPECIFICATIONS

### CABINET LOCKS

Operation Voltage	12V DC intermittent $\pm 10\%$
Power Consumption	12V DC 1500mA
Operation Mode	Fail Locked
Holding Force	150KG
Maximum power on time	<1 second
Solenoid	Rated for intermittent use
Cycle Rating	More than 1,000,000 times
MS Contact Rating	2A @ 25V
Mechanical Override	7mm hole
Dimensions LxWxH	72mmx56mmx13.8mm
Gross Weight	250g
Protection Class	IP20

- Superior heavy-duty metal construction with chrome-plated steel housing
- Three-bolt regular triangle mounting enables high security
- Mechanical override enables manual release during power failure

### KIOSK INDUSTRIAL TOUCH DISPLAY

- 12.1" Industrial Touch Display
- Intel J1900 quad-core processor
- 4GB RAM
- Operating System: Windows 10 IOT
- 64GB ROM
- PCAP 10 point touch
- <48 W X86 power consumption
